

Harriet B. Webster
Student Ambassador Leadership Pledge

As Student Ambassadors, we strive to explore and develop our personal abilities, using these abilities to pursue our ambitions. We gain success throughout our journey by never compromising our integrity and exceeding our potential in all that we do. We commit our lives to caring for others and our communities.

As representatives of our nation's future, we exercise our minds and bodies by being supportive of one another, working together cooperatively, helping and encouraging one another in our day to day challenges, and by assuming responsibility for our own behavior. We never shy away from new challenges nor cease to work hard for the sky is the limit.
